THE SPELLBOUND WORLD OF IRON FAIRIES

Hidden beneath the bustling streets of Central, The Iron Fairies Hong Kong is a nightclub where imagination becomes reality.

Nestled on the LG floor of Chinachem Hollywood Centre, this whimsical yet sophisticated bar blends artistry, music, and mixology.

Step inside, and the city's rush will be replaced by the hum of vibrant music and the clink of handcrafted cocktails.

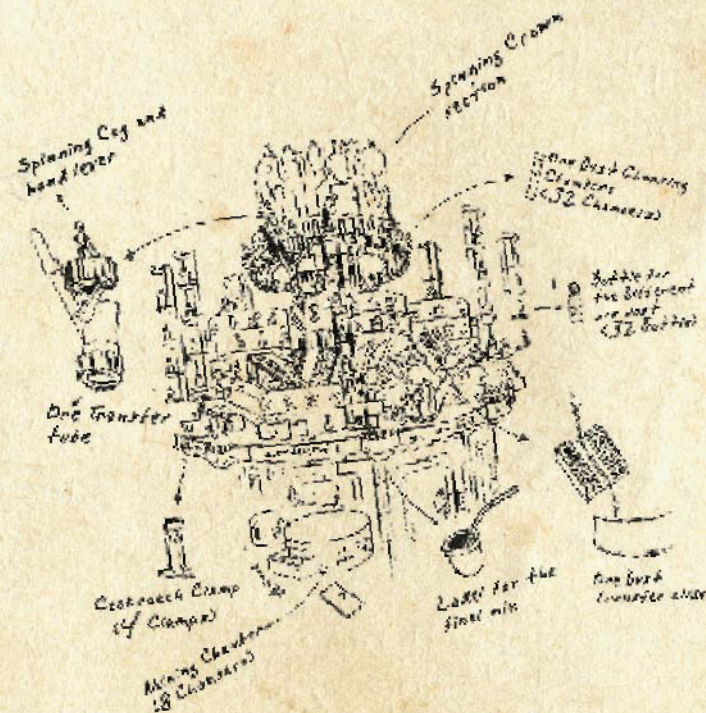

THE SOURCE OF MAGIC

The magic behind this enchanted bar comes from the minds of Sandeep Sekhri, a visionary in hospitality, and Ashley Sutton, an award-winning and celebrated designer and author whose childhood fable gave birth to the Iron Fairies universe.

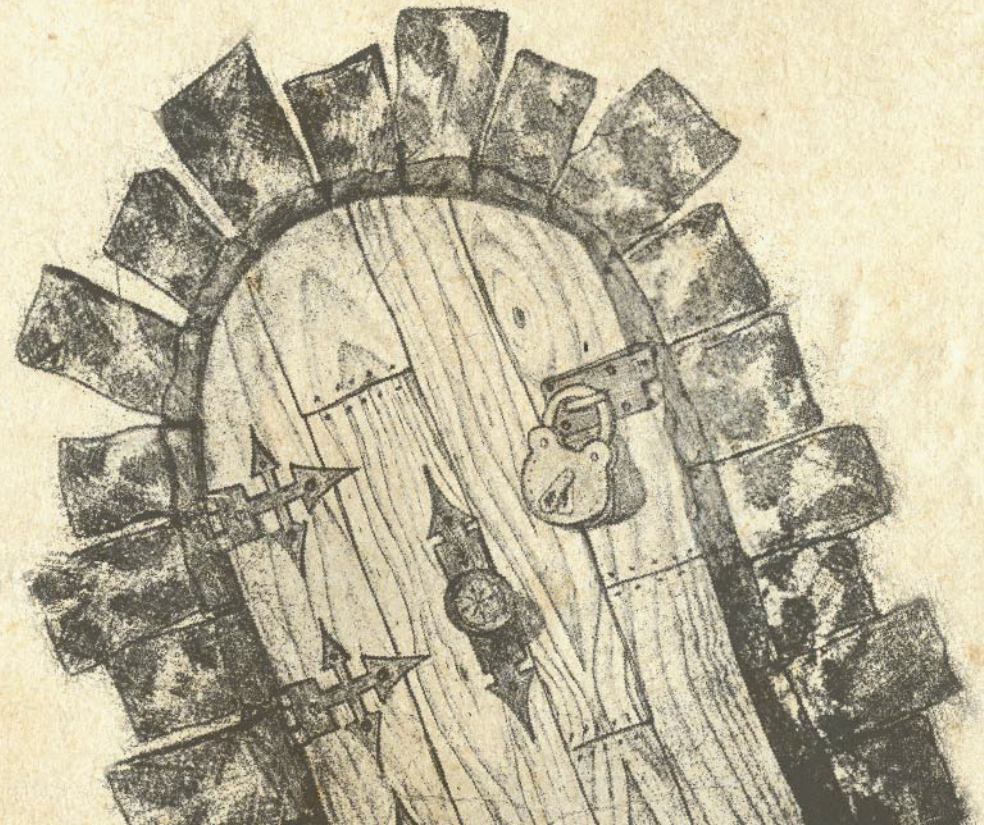

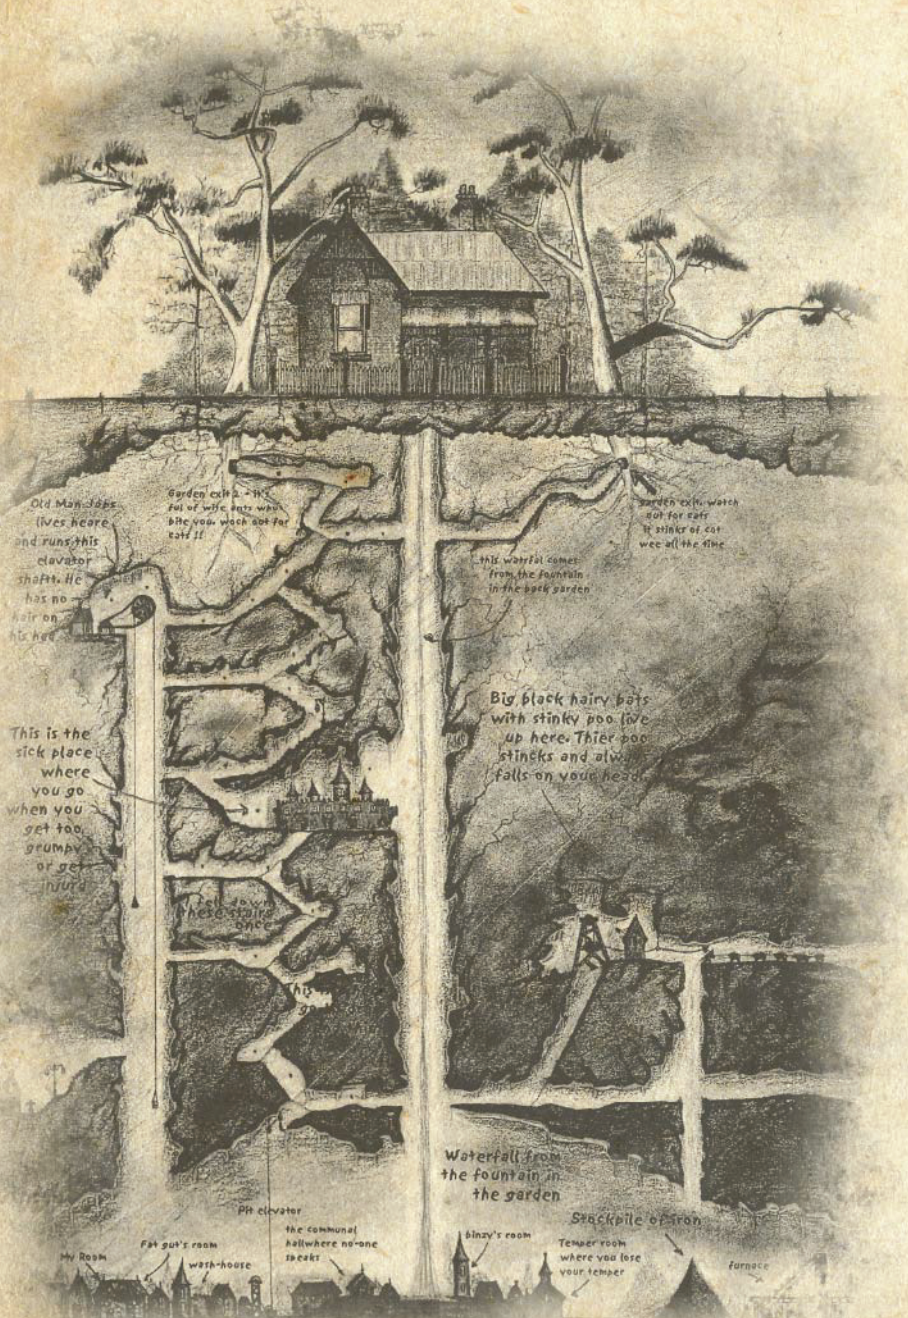

Together with Boutique Bars, the duo brought this fairytale to life.

THE ENCHANTING SPACE

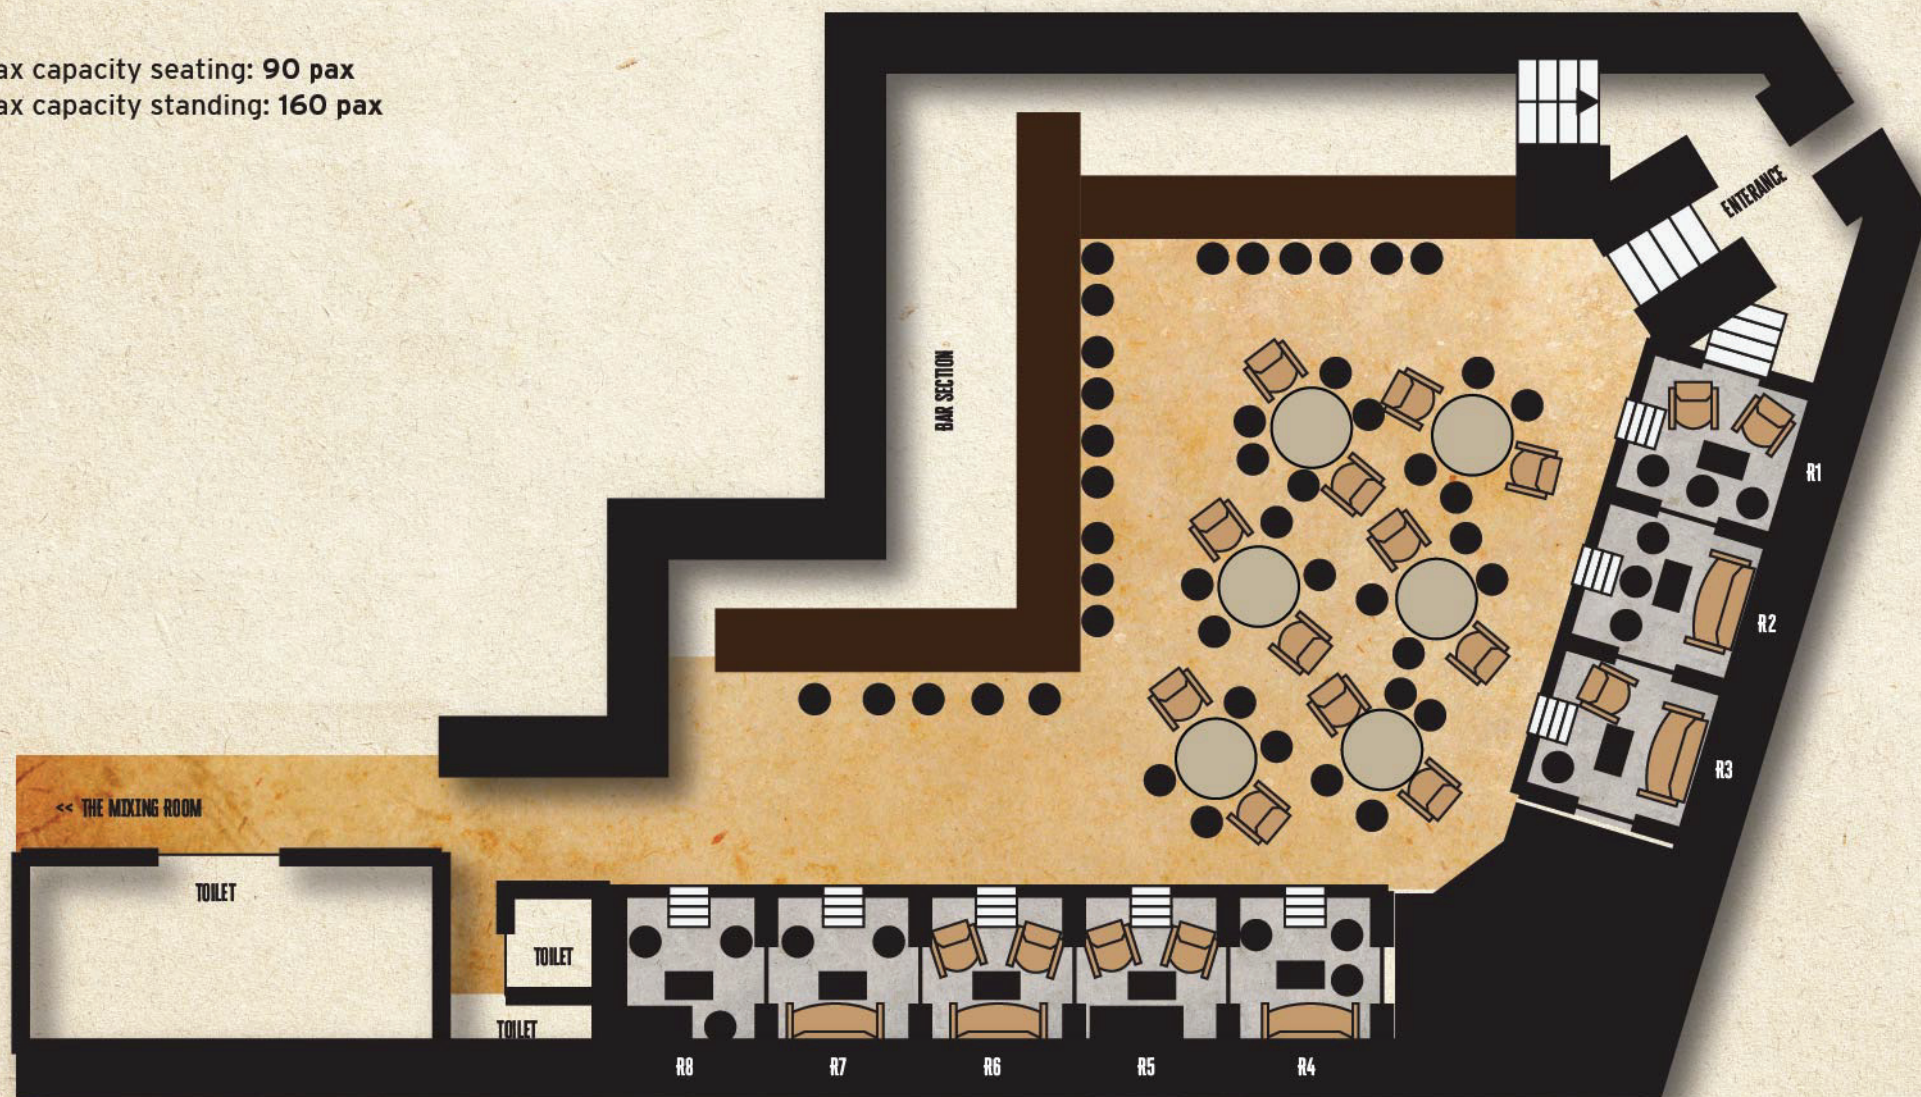

Also known as "The Butterfly Bar", guests will be fascinated with over 10,000 delicate butterflies that appear to hang suspended from the ceiling, and miniature iron fairy figurines are placed across the tables.

These subtle storytelling elements transform the bar into something more than just a nightlife landscape that accommodates up to 110 seated and 160 standing guests.
